So here we go...

Hello, world! Hope you're doing alright out there... Finally, here is my first attempt at blogging. Inspired by zen master a.ndy the Wise (check out his blog at <http://www.interesting-times.blog.de/main/>), I'm going to try to produce words and pics from time to time. Oh, BTW, who am I? I suspect most of you reading this already know, but for those who don't, here goes...

Name: Eddy

Gender: male

Age: twentysomething

Nationality: half English, half German

Occupation: communications trainer gone theology student (more on that in future blogs), musician

Location: Germany

Interests: music, sports (biking, rollerblading), books, all things intercultural

Can't think of much else right now. Sorry there's no pics up yet - I'm not the world's most technical guy (okay, that was a rotten Stones misquote), but I'm working on getting those files down to size...

So, see you around, be safe, increase the peace, whatever...

Henry Louis Gates Jr. - Loose Canons

From The Oprah & Friends Radio Show with Gayle King, 2 February 2007

[Gayle talks to Henry Louis Gates, Jr., chairman of African and African American Studies at Harvard University]

Colored People by Henry Louis Gates Jr.
Multiculturalism. It has been the subject of cover stories in Time and Newsweek, as well as numerous articles in newspapers and magazines around America. It has sparked heated jeremiads by George Will, Dinesh Dâ€™Sousa, and Roger Kimball. It moved William F. Buckley to rail against Stanley Fish and Catherine Stimpson on "Firing Line." It is arguably the most hotly debated topic in America today"and justly so. For whether one speaks of tensions between Hasidim and African-Americans in Crown Heights, or violent mass protests against Moscow in ethnic republics such as Armenia, or outright war between Serbs and Bosnians in the former Yugoslavia, it is clear that the clash of cultures is a worldwide problem, deeply felt, passionately expressed, always on the verge of violent explosion. Problems of this magnitude inevitably frame the discussion of "multiculturalism" and "cultural diversity" in the American classroom as well. In Loose Canons, one of America's leading literary and cultural critics, Henry Louis Gates, Jr., offers a broad, illuminating look at this highly contentious issue. Gates agrees that our world is deeply divided by nationalism, racism, and sexism, and argues that the only way to transcend these divisions"to forge a civic culture that respects both differences and similarities"is through education that respects both the diversity and commonalities of human culture. His is a plea for cultural and intercultural understanding. (You can't understand the world, he observes, if you exclude 90 percent of the world's cultural heritage.) We feel his ideas most strongly voiced in the concluding essay in the volume, "Trading on the Margin." Avoiding the stridency of both the Right and the Left, Gates concludes that the society we have made simply won't survive without the values of tolerance, and cultural tolerance comes to nothing without cultural understanding. Henry Louis Gates is one of the most visible and outspoken figures on the academic scene, the subject of a cover story in The New York Times Sunday Magazine and a major profile in The Boston Globe, and a much sought-after commentator. And as one of America's foremost advocates of African-American Studies (he is head of the department at Harvard), he has reflected upon the varied meanings of multiculturalism throughout his professional career, long before it became a national controversy. What we find in these pages, then, is the fruit of years of reflection on culture, racism, and the "American identity," and a deep commitment to broadening the literary and cultural horizons of all Americans.

Austin Texas Real Estate

Attorney Austin ; Austin Texas Real Estate Intercultural Communication: A Practical Guide by Tracy Novinger, Successfully communicating with people from another culture requires learning more than just their language. While fumbling a word or phrase may cause embarrassment, breaking the unspoken cultural rules that govern personal interactions can spell disaster for businesspeople, travelers, and indeed anyone who communicates across cultural boundaries. To help you avoid such damaging gaffes, Tracy Novinger has compiled this authoritative, practical guide for deciphering and following "the rules" that govern cultures, demonstrating how these rules apply to the communication issues that exist between the United States and Mexico. Novinger begins by explaining how a major proportion of communication within a culture occurs nonverbally through behavior and manners, shared attitudes, common expectations, and so on. Then, using real-life examples and anecdotes, she pinpoints the commonly occurring obstacles to communication that can arise when cultures differ in their communication techniques. She shows how these obstacles come into play in contacts between the U.S. and Mexico and demonstrates that mastering the unspoken rules of Mexican culture is a key to cementing business and social relationships. Novinger concludes with nine effective, reliable principles for successfully communicating across cultures. A real estate investment professional currently residing in Austin, Texas, Tracy Novinger writes from extensive research and her personal experiences of living and working in cultures as diverse as Aruba and Tahiti. She was born in the Caribbean, studied in Brazilian schools, speaks several languages, has traveled extensively, and has a master's degree in communications. Attorney Austin They Call Me Sid Rock: Rodeo's Extreme Cowboy Sid Steiner burst onto the professional rodeo circuit in 1995 at 20 years old. At the 2002 Wrangler National Finals Rodeo in Las Vegas, Sid captured the world championship with a spectacular 10th-round performance that capped two weeks of competition in Sin City. Steiner went on to sign endorsement deals with Wrangler, Pepsi, Pace, Dodge, Jack Daniels, and Bull's Eye BBQ Sauce. They Call Me Sid Rock tells the story of a Texas dynasty that started with Buck Steiner, born in 1899. Buck's son Tommy took the family lead and ran a growing real estate empire in Texas and an emerging rodeo company that produced rodeos all over the world. Sid Steiner's father, Bobby, was the 1973 World Champion Bull Rider. Steiner's book will chronicle his rise to the pinnacle of the sport in a scant seven years and the remarkable way he has captured the imagination of young and old rodeo fans across the nation. From his all-state line-backer days at Anderson High School in Austin to sending Ty Murray's bodyguards to the hospital in a San Antonio barroom brawl, Sid Steiner has fought the stereotypical rich kid persona. Sid Steiner carries four generations of American legends in his blood. This book chronicles the new generation of cowboys making waves in the fastest growing sport in America. Attorney Austin Crescent Real Estate Equities Co. - Crescent Real Estate Equities Co. is a Fort Worth, Texas-based real estate investor with holdings mainly in office and hotel properties, including several landmark buildings in the southern United States. The Real World (Austin) - The Austin Season of The Real World premiered on June 21, 2005 on MTV. It is the sixteenth edition of the popular reality series, featuring seven strangers living in a house in Austin, Texas. Echo Power Tools

As worldwide travel and contact increase, intercultural communication competence becomes a powerful imperative that goes beyond traditional approaches. The authors' travel experiences in Africa, Asia, Europe, and North and South America and their interactions with people during their travels echo in the book through stories and ideas that have enriched their perspectives. Their firsthand experiences combined with their scholarship offer readers insight into and knowledge of the field of intercultural communication. Offering a unique treatment of intercultural communication culled from the global experiences of its authors, "Intercultural Communication: Roots and Routes" examines intercultural communication against the background of a rapidly-transforming world, both culturally and linguistically. This book focuses on the inseparable relationship between cultural roots and the communicative consequences of humans' confrontation with diversity. Using the metaphors of process and movement-- "roots and routes"-- to capture the ongoing dynamism of intercultural communication, this book demonstrates how theory animates intercultural performance. These metaphors are used as powerful tools for understanding how primary places and things such as home, family, experiences, immigration, food, prejudices, perceptions, popular culture, race, gender, and customs and traditions, help to shape what people think, feel, and do as they interact in an increasingly complex world. Anyone interested in expanding their knowledge of intercultural communication on a personal or professional level
