When German Craftsmanship Spells Customer Satisfaction

Audi is the perfect epitome of German craftsmanship. From advanced, state-of-the-art designs to top-of-the line materials, Audi parts and accessories bear the signature of providing utmost driving pleasure that has been brought forth through the years"all because of the quality parts every Audi vehicle comprises.

An almost wholly owned (99.7%) subsidiary of the Volkswagen Group since 1964, Audi's German banners its tagline as "Vorsprung durch Technik." This is used either not translated or in its English translation, "Advancement Through Technology". The American tagline is "Never Follow." With August Horch as the founder of the auto company in 1889, it produced the first Horch automobile in 1901 in Zwickau. However, in 1910, Horch was kicked out of the company he founded. From scratch, he started out again using the Horch brand.

His former partners sued him for trademark infringement and a German court determined that the Horch brand belonged to his former company. August Horch was forced to refrain from using his own family name in his new car business. As the word "horch!" translates to "hark!" in German, August Horch settled on the Latin equivalent of his name "audi." It is also popularly (but incorrectly) believed that Audi is an acronym which stands for "Auto Union Deutschland Ingolstadt".

Audi kicked-off with the 2612, 3564, 4680 and 5720 cc models. These first Audi engines were the first batches that rolled out with a 4-cylinder engine. Such performance and power brought the company much success in sporting events. By 1924, the first six cylinder model, or the 4655 cc (4.7L), was introduced to the market. In 1928, the company was acquired by Jorgen Rasmussen, the owner of DKW, who also bought the remains of the United States auto maker Rickenbacker that same year. The buyout also included manufacturing equipment for eight cylinder engines. Then, the engines were used in Audi Zwickau and Audi Dresden models that were launched in 1929. After several innovations, Audi became known for manufacturing luxury cars designed with a special bodywork. The tradition lives as it currently introduces the 2006 Audi A3 with a 2.0 liter turbo-charged 4-cylinder engine.

The many years of industry experience and careful craftsmanship has catapulted Audi to be at the forefront of the race for automotive superiority. Performance parts are built with the latest technology and toughest materials for the Audi vehicle to perform like a workhorse even at critical times. The accessories give the functionality and the convenience, transcending the level of aesthetics it provides. Every part is crucial for the completeness of every Audi car. The transmission system, carburetor system, ignition system, cooling system, exhaust system, electronic and wiring systems, and other complex components are constantly being updated to further improve the performance of an Audi car. Accessories from the interior (seat, flooring, rearview mirror, steering wheel, etc.) to the exterior (lighting system, paint finish, side mirrors, grill, etc.) are meant for functionality and enhanced looks in different kinds of personality.

There will come a time that the luster of efficiency and sporty, elegant looks of the Audi vehicle would wane. With constant use and low-maintenance, Audi parts may be damaged or may even wear-off. At worse, they could even become non-performing. No matter how cautious a motorist drive in order to avoid accidents and other bumps along the way, undesirable elements like dirt, water and other debris will definitely come in the way as it may cause rusting, tarnishing, among others. And so, in order to maintain the optimum performance and elegant styling it brings, Audi aftermarket parts are readily available in auto stores everywhere. The cyberspace also caters to this need for quality parts as online stores. All these are up for grabs for a stellar quality of the Audi vehicle.

Anthony Jones loves to read anything about cars and trucks. He is hoping that one day he can own his dream car.

Art Art Japanese Print

Art Comb ; Art Art Japanese Print Hokusai & Hiroshige: Great Japanese Prints from the James A. Michener Collection, Honolulu Academy of Arts by Julia M. White, The society of Japan's Edo period (1615-1867) embraced a number of intriguing contradictions. It was a time of unprecedented stability, when Japan, previously a mosaic of violently warring feudal states, finally achieved unity as a nation. Though strictly stratified in four hereditary classes -- nobles, farmers, artisans, and merchants -- Edo society nevertheless produced a vigorous middle class of enterprising commoners. By the 1800s, commoners enjoyed the numerous amenities of Edo (Tokyo), the world's largest city (pop. ca. 800,000). They launched businesses, perfected crafts, gained leisure time and literacy, traveled a system of safe roads, and enjoyed art and poetry. While initially print makers illustrated the denizens of the pleasure quarters, or Ukiyo (Floating World), the print also became an acceptable and affordable medium for the full range of expression common to Japanese art, including landscape, flowers and birds, and genre scenes. The most important and prolific were the 19th-century artists Katsushika Hokusai and Utagawa Hiroshige, whose prints constitute the most recognizable images of Japanese art throughout the world. This collection of 200 prints, 100 by each artist, is designed to explore their full range of expression. The selection includes their great landscape series, among them Hokusai's complete Thirty-six Views of Mount Fuji, and the unfailing favorite, Hiroshige's Fifty-three Stations of the Tokaido Road, also in its entirety. In Hokusai's and Hiroshige's prints, we see the faces of the new middle class, both the excitement and drudgery of their daily activities, and their favorite views of landmarks and natural wonders.

Art Comb Japonisme: The Japanese Influence on Western Art Since 1858 by Siegfried Wichmann, Japan's impact on Western art was as immediate and almost as cataclysmic as the influence of the West on Japanese life. After Commodore Perry opened Japan's door to the outside world in 1858 -- ending a 200-year period of total isolation -- a wealth of visual information from the superb Japanese traditions of ceramics, metalwork, and architecture, as well as print-making and painting, reached the West and brought electrifying new ideas on composition, color, and design. One has only to see a celebrated painting by Monet, Degas, Whistler, or van Gogh, an Art Nouveau glass vase, or a lacquered hair comb side by side with its Japanese source to see how those ideas have inspired artists. Nor is the influence a superficial one: Japanese conventions of symbolism underlie the use of decorative motifs in European Symbolism and Art Nouveau, and the Zen idea of spontaneity is the ultimate source of both the apparently capricious shapes of Art Nouveau ware and the development of an abstract "calligraphy" in Abstract Expressionism. Siegfried Wichmann, the acknowledged expert on Japonisme, surrounds his breathtaking illustrations with a text that, in marshaling a wealth of detail, encapsulates the present state of research and opens up new lines of enquiry.

Art Comb Japanese art - Japanese art covers a wide range of art styles and media, including ancient pottery, sculpture in wood and bronze, ink painting on silk and paper, and a myriad of other types of works of art. It also has a long history, ranging from the beginnings of human habitation in Japan, sometime in the 10th millennium BC, to the present. Tikotin Museum of Japanese Art - The Tikotin Museum of Japanese Art, which stands on Mount Carmel in Israel, is devoted entirely to displaying and conserving Japanese art works, and is the only one of its kind in the Middle East. Japanese Architecture and Art Net Users System - Japanese Architecture and Art Net Users System or JAANUS is a dictionary of Japanese architecture and art terms compiled by Dr. Mary Neighbour Parent. Japan Art History Forum - The Japan Art History Forum (JAHF) is an online discussion group for participating members to discuss Japanese art history as well as visual material culture. The Japan Art History Forum (JAHF) was founded in 1997.

Wisdom Menopause

Menopause ; Wisdom Menopause The Wisdom of Menopause by Christiane Northrup, X Through her

bestselling books, groundbreaking PBS specials, and up-to-the-minute clinical knowledge, DR. CHRISTIANE NORTHRUP has earned a place as one of America's most trusted medical advisors. In *The Wisdom of Menopause*, she once again challenges convention with this inspiring look at one of the most commonly misunderstood female health issues. The "change" is not simply a collection of physical symptoms to be "fixed," DR. NORTHRUP claims, but a mind/body revolution that brings the greatest opportunity for growth since adolescence. The choices a woman makes now—from the quality of her relationships to the quality of her diet—have the power to secure her health and well-being for the rest of her life. Through her personal story and many fascinating case histories, Dr. Northrup shows:

- How menopause jump-starts changes in the brain, issuing a dramatic wake-up call to body, mind, and emotions
- How to ensure the long-term health of breasts, bones, and heart
- How the body adjusts naturally to changing hormones
- Why bestselling drugs like Premarin may not be the best choice
- How to deal with metabolism shifts, weight gain, sexual problems, and appearance issues
- How to negotiate the challenges of "the empty nest" and midlife marriage

And much more. In a book destined to be a classic, DR. NORTHRUP shows women how they can make menopause a time of personal empowerment and positive energy—emerging wiser, healthier, and stronger in both mind and body than ever before.

Menopause Women's Bodies, Women's Wisdom by Christiane M. D. Northrup, A groundbreaking book on women's physical and emotional well-being, *Women's Bodies, Women's Wisdom* has become a classic, with more than 1.25 million copies in print. Here in this revised edition is the most up-to-date information available on women's health issues. *Women's Bodies, Women's Wisdom* Christiane Northrup's vision of mind-body wellness has received an extraordinary response from women all over the world. *Women's Bodies, Women's Wisdom* powerfully demonstrates that when women change the basic conditions of their lives that lead to health problems, they heal faster, more completely, and with far fewer medical interventions. Dr. Northrup brings us vital information about the best techniques of Western medicine and the best alternative therapies, showing how to incorporate both into a complementary whole. She guides readers through the entire range of women's health problems and offers innovative, positive perspectives on normal processes, such as menstruation, pregnancy, and menopause. This edition includes:

- A nutrition chapter emphasizing individual dietary needs and body chemistry
- Information on improving fertility after age 35—and how to cut the risk of C-section by 50 percent
- A comprehensive program for menopause, including how to decide whether natural hormone replacement is right for you
- Holistic ways to prepare and heal faster if surgery is necessary
- Plus dozens of natural treatments and a wealth of hard-to-find health care resources

Filled with dramatic case histories from her medical practice in Maine, *Women's Bodies, Women's Wisdom* is contemporary medicine at its best, combining new technologies with natural remedies and their miraculous healing powers within the body itself.

"From the Trade Paperback edition. *Menopause Five Wisdom Kings* - In Vajrayana Buddhism, the Five Wisdom Kings (Jp. 五智王 *Godai myōō*), also known as the Five Guardian Kings are a group of Wisdom Kings who represent the luminescent wisdom of the Buddha and protect the Five Wisdom Buddhas. *Book of Wisdom - Wisdom*, also known as the *Wisdom of Solomon*, is one of the deuterocanonical books of the Bible that are not translations of Hebrew originals. Although it is written as if by Solomon, its language and ideas alike are entirely of Greek origin. *Masters of wisdom - The Masters of Wisdom* also known as the Great White Brotherhood, the Society of Illumined Minds, the Elder Brothers of humanity, the Teachers, the Guides, the Mahatmas, the Masters of Wisdom and Lords of Compassion. As a group they are known as the Spiritual Hierarchy. *The Wisdom of Crowds - The Wisdom of Crowds: Why the Many Are Smarter Than the Few and How Collective Wisdom Shapes Business, Economies, Societies and Nations*, first published in 2004, is a book written by James Surowiecki about the aggregation of information in groups, resulting in decisions that, he argues, are often better than could have been made by any single member of the group. The book presents numerous case studies and anecdotes to illustrate its argument, and touches on several fields, primarily economics and ... *wisdommenopause* All rights reserved. Travel: Any Polish Speakers Out There?

Polish magazine Charaktery reports on my Philosophy of Flirting paper in Polish.

Although I don't speak a word of Polish, thanks to online translation site Poltran, I can reveal that what it says is:

Carrie Jenkins, On department of Australian philosophy of national university in Canberra doktorantka, there is author of publication titled 'Philosophy Flirt', soon it has appeared in London which (who)?? The Philosophers Magazine. Idea of writing of article has emerged for (after) it, as it has met on way of other student of philosophy Jenkins, Daniel name Nolan and it has fallen in love in it.

If anyone out there speaks Polish and can offer a more, erm, natural-sounding translation, and more generally tell us what kind of magazine this is, please write in!

In other news, the Brisbane studio where we recorded our ABC interview yesterday is today closing down! Content from: Long Words Bother Me

Bible Verse Translation

Thought Verse ; Bible Verse Translation King James Version/Amplified Parallel Bible: Black Bonded Leather This Bible includes the complete texts of both the King James Version and the Amplified translations set side-by-side, now offered in large print for more comfortable reading and study. The features of this Bible include the full texts of both Bibles in verse-by-verse format for ease of study; full publisher's prefaces for both translations; and two separate abridged concordances, one keyed to each translation. Also includes red letter for the words of Christ. Thought Verse Worship by Tyndale House Publishers, The Life Application Bible Topical Studies encourage readers to take their understanding of God's word and put it into action! Featured topics are important and relevant for today. Complete with application notes, thought provoking questions, and relevant Scripture passages, the "Life Application Bible Topical Studies" are perfect for group leaders, teachers, or anyone looking for spiritual insight on today's important issues. -- Each Bible study guide contains six lessons on the featured topic. -- Key Bible verses are presented in three different versions of the Bible (King James Version, New International Version, and New Living Translation) so readers can choose which translation they want to use, or compare and contrast different texts. -- Each lesson includes two topic-related questions designed to stimulate discussion, a study section containing three sets of verses, application notes, and questions on the featured topic, a summary review section, and additional material to extend the lesson or provide alternatives to the study section material. -- Discussion questions help readers think about practical ways to apply the truth of the Bible to everyday life. Thought Verse Bible citation - A Bible citation is usually referenced with the book name, chapter number and verse number. Sometimes, the name of the Bible translation is also included, usually in abbreviated form. Genesis 1:1 - Genesis 1:1 is the first Bible verse of the first chapter in the Book of Genesis, and contains the first words of the Bible. The verse begins the account of creation according to Genesis and its translation and interpretation is a major theological issue. Joseph Smith Translation of the Bible - The Joseph Smith Translation of the Bible, also called the Inspired Version of the Bible or the JST, is a version of the Bible dictated by Joseph Smith, Jr. The work is the King James Version of the Bible, but with some significant additions, clarifications, and revisions. Key Bible verse - In Christian faith and doctrine, many people have identified key Bible verses (snippets of scripture which were arbitrarily numbered in the 16th century) which they believe reveal the nature of God and his dealings with man. While some Bible verses may be more significant to some groups of believers

than to others due to denominational differences, there are many scriptures which may be considered as "key" due to how frequently they are cited either in doctrinal statements, such as the Westminster ... bibleversetranslation It was in 1831 that the first compl... Today, the whole Bible has been translated into many languages. The New Testament into Old English. It soon became the generally accepted translation for Reformed churches in the works of Chaucer. This page gives information about Bible translations The Bible has been translated into many languages. The New Testament into Old English. Doi Inthanon - The Highest Peak in Thailand - Chom Tong, Thailand

Chom Tong, Thailand
Doi Inthanon is an impressive sight. At least I'm sure it would be if you could see it through the haze of that clings to it on all sides. No matter though, I wasn't going to let it stop me from getting to the top and seeing the peak of Thailand. Let's back up for a moment though. The fact is that we are doing this little expedition on a Thursday. Yes, a Thursday. Now you might be wondering now what possible reason I could have for not attending class yet again. The reason this time is scout camp, which is a large organized event for all the younger students that takes place over a long 4-day weekend. The opportunity to join this operation was presented to us, but we figured that a weekend spent away from the students might serve us better, so off we went to Chiang Mai. There are many opportunities around Chiang Mai for getting out of the city and enjoying a little nature, and Doi Inthanon happens to be a good one. The trip started early at Bake 'N' Bite for a hearty breakfast of omelettes, yoghurt, fruit, muesli, bagels, coffee, and juice, and then on to the bus station for the trip to Chom Tong where we would catch a ride up to the mountain. This time around, it was just me, Justin, and Sarah because Sebastian had already been to the mountain. The three of us managed to arrive at the bus station about 10 minutes before the next bus was leaving, so score one for good timing. The bus ride was relatively short and easy enough, and we landed at an empty lot that was the "station" in town. We managed to find a man that was taking people up the mountain, but he wanted some ridiculous price for it that I don't even remember. We instead just went with him to the gate at the base of the mountain and let him and his high prices go on without us. We purchased our tickets at Thai prices since we are legally working and living in the country, so we saved about 90% on the price of our park ticket. We then walked about 1km to a waterfall nearby. What a spectacular sight. The water was roaring through the rocks and misting us as if to entice us to try a swim. The rocks were smooth and shiny having been washed by water for so many years, and we reluctantly left the area after exploring for about 20 minutes. Of course the first hurdle in the trip would come now. The afternoon was growing, and most of the people heading to the top of the mountain had already gone up. That means that all of the vans and song-thaews were empty and no one was waiting with us to get a ride. In a group, the price per person isn't bad because the price for the vehicle is always the same, but in a small group, like three, the price becomes horrendous. We decided to wait by the road in hopes of catching a partially full vehicle up the mountain, and in the blistering sun, I walked back to the gate to find some shade and hopefully a nice person to give us a lift. Sarah and Justin stayed in the van lot to talk to drivers and find a group there. After about 15 minutes or so of flagging down cars and getting nowhere with trying to find a ride, I finally managed to catch the attention of a trio of Thais in a pickup truck coming into the park, and not two minutes after telling Justin to give me a few more minutes before hiring a van as well. One of them, named Ome, spoke decent English, and I asked him if my two friends and I could have a ride up the mountain. He said that would be fine, so I called Sarah and Justin and told them to run up to the gate

because our chariot was waiting. We all climbed in back of the pickup and took off for what would be one of the scarier things I have ever done in my life. Dii was the guy who was driving, and he was driving the hell out of this truck. I'm glad we were going up hill because down hill would have been unbearable. Speeding up at every possible opportunity, passing everyone, screeching tires around turns, and terror at every moment. Wow. It's hard to gauge how close we ever were to some disaster, but with such exposure, it sure felt close. But again, on the plus side, we got up the mountain in record time and free of charge. It was also during a mid-mountain break that we had the Most Humorous Conversation of the Trip, which went as follows: Ome: "My friend drives very fast. It scares me. Are you scared in the back?" Dane: "Yeah, terrified." Sarah: "Um, yeah." Justin: "Very scared, but Sarah here is barely breathing." Ome: "Don't worry though. My friend has much experience. He is a cross-country racing champion." Sarah: "Oh, that makes me feel a little better." Justin: "Yeah, so he knows what he's doing, right?" Ome: "Actually, I'm just joking, but he does have experience. Midnight racer." Dane: "Isn't that a video game?" So we never determined if Dii was a racer or not, but the car never left the road. I guess I should be thankful. At the peak of the mountain are two stupas built in honor of the queen and king. The king's stupa is a bronzish color, while the queen's has a purple hue to it. Both are identical in shape and size and open for the public to explore. There are also some nice gardens in the area, and of course the view is spectacular. Unfortunately, the haze was rather thick, so we couldn't see as far as one might be able to otherwise, but it was still breathtaking. Another random surprise at the summit that wouldn't have happened had we not been with Ome was that he pointed out a man in the crowd who is actually the second most-renowned astrologer in Thailand. He was walking around with a little squad of family and friends, as well as a film crew. I never got a clear picture of what he was doing, but it must have been worthy enough to preserve on film, whatever it was. Inside the queen's stupa was an interesting scene of farangs (westerners) sitting on one side of the room chanting during some sort of organized meditation. I don't know why it struck me so, but it seemed really out of place and didn't sit well with me. Perhaps it was because all the people were in touristy clothes, or the fact that they seemed to emit this sense of desire to take advantage of what they consider "eastern" thought. In any case, it just seemed like an unfortunate commodification of a religious and spiritual experience that makes cultures and practices like buddhism what they are. Honestly, how would you feel if you went to one of the more prominent churches in town to find a paying group of foreigners taking up half the space in some attempt to become part of the prominent local faith during their month-long holiday by mimicking some sacred rite or ceremony you had been performing for as long as you could remember? And you might be wondering now how far up we actually are in the sky, and I will tell you in just a moment once we are at the part about the true summit. The true summit is actually not that exciting. There is just a simple spirit house at the top, various statues of elephants and other significant Buddhist and Thai figures, and a benchmark to mark the height. And when I say benchmark, it is a literal mark on a concrete bench. Something must have been lost in the translation. The forest itself is amazing as well, for the moisture creates a startling green cover on almost everything. And the canopy is so thick that sunlight barely makes its way down through the leaves. There is also some sort of public works facility there with a giant golf-ball looking structure. The club I hear is still under construction. And as for the height, well, it is a whopping 2565.334 meters, which is about 8416 feet. Not the most spectacular ascent I've ever done, but I can now say I've visited the tallest point of two countries. (I'll let you know the other at the end of the entry). The day was wearign on, and Ome, Dii, and Nan were staying on the mountain, so we hired a song-thaew to take us back to the station. The ride was rather painless as the covered bed at least gave us the illusion of some added security. I managed to fall asleep on the ride, so it felt like it took no time at all. Once back at the base, we flagged down the bus running back to Chiang Mai and eventually made it back to the city for an easy night of good food and fun times. And that other country is Vatican City, which peaks out at 75m. Better bring the oxygen.

Saab Sponsors Fashion Fair in Copenhagen, Denmark

Photo Credit: Saab Automobile Denmark

2007-01-23

Saab is the car sponsor for this years CPH Vision - The Fashion Fair i Kopenhagen
Four Saabâ€™s will do the transportation of international press people under this year big special trade fair CPH Vision, that will have about 25.000 visiotors during the period 8 to 11 February.

Saab have put four cars to be used for the guests, that because Saab is sponsor for CPH Vision - The Fashion Fair together with SAS (Scandinavian Airlines System), the fashion magazine IN, Norman Copenhagen, Fujitsu Siemens Computers and Alfaview.

The four Saabâ€™s will on the car sides advertise for both the fashion show and Saab Biopower - the fuel that is very popular in Sweden and for the moment is much debated here at home (in Denmark) as an alternative fuel.

Crown princess Mary, that self drive a Saab 9-3 Cabriolet, will come to visit the show and will then give a distinguished prize plus 50.000 kroner (about 8600 USD) to a talent Nordic design student. The prize name is Designersâ€™ Nest. This happens 11 February.

Thank to Mieh for the Danish translation!

For more information on the CPH Vision Fashion Fair, please visit <http://www.cphvision.dk/>

Media Keg HD10GB7 from Kenwood. Folks in Japan who are into DAPs will have barrels o' fun with the latest Media Keg from Kenwood, the HD10GB7. As the product name suggests, this tiny player manages to hold a 1" micro hard drive with 10 GB of storage, allowing Kenwood to claim it as the world's smallest hard-drive player.

Like past Kenwood players, the HD10GB7 includes a built-in "digital amplifier" which is supposed to up the overall sound quality and minimize distortion on high volume levels. There's also something in the translation about "Supreme&quo t; sound technology, which could be some sort of EQ enhancer, or quite possibly, some sort of sandwich.

Specs:

- * 10 GB 1" microdrive
- * 446217m m
- * MP3, WMA (DRM), WAV support
- * JPEG photo viewing
- * 24 hours of battery life (128 kbps MP3)
- * 6 presets + custom EQ

The HD10GB7 also comes in black and will be available in japan in December. More

Latin American Poetry

Angle Verse ; Latin American Poetry The Columbia Granger's Index to Poetry in Anthologies by Tessa Kale, Each edition of "Grangers" includes title, first line, last line, author, and subject indexes for approximately 400 poetry anthologies on library shelves. "Grangers" performs a valuable service for librarians by helping people locate poems when they have limited information about them, and by helping them locate poems by authors or on subjects they are interested in. Each edition indexes about 150 anthologies that have been published since the last edition, substituting them for 150 anthologies that have since fallen out of use. The anthologies included in the 12th edition consist of all of the significant titles that have appeared since the completion of the 11th edition in 1997, such as the comprehensive Norton anthologies of English literature, American literature, and world masterpieces; the new Oxford, Penguin, and Faber anthologies; and the new Columbia anthologies of Chinese literature, gay literature, and contemporary American womens poetry. Also included are important new collections of Russian, Japanese, Italian, Latin American, and African poetry; of poetry

from minority cultures, particularly women minorities, throughout the world; and of Native American, African American, and Asian American poetry. "Grangers" continues to index anthologies of religious poetry and childrens verse, as well as topical collections on such subjects as popular culture and sports. Angle Verse Cosmic Canticle by Ernesto Cardenal, In this epic poem, Cardenal explores Latin American history by relating the evolution of the universe to the development of human understanding. Throughout, Cardenal blends the visible and the invisible, science and poetry, religion and nature, in 43 autonomous yet integrated cantos. "Cosmic Canticle is a towering piece of work, a quite extraordinary achievement." Harold Pinter "This epic will be compared to Neruda's Canto General. . . . Heady stuff." Library Journal "Ernesto Cardenal is one of the most important poets writing today. He is one of the giants, in the tradition of Neruda and Guillen. And like all those bearers of a truly human truly transforming art, he is deeply political, deeply committed to struggle, and absolutely clear that to be art, rather than aint, the song must be truth to be beauty." Amiri Baraka "Priest and Nicaraguan revolutionary as well as poet, Cardenal epitomizes what makes literature live in Central America today." Booklist "Like Pablo Neruda, the Nobel Prize-winning poet from Chile, Cardenal combines politics and poetry while speaking forthrightly about the history of exploitation in the Americas." National Catholic Reporter "This is much more than just another poets collection of singular verse: Cardenal spent more than 30 years producing this epic, which relates Latin American history to the evolution of human understanding. More than 40 cantos in English are provocative creations." The Bookwatch The towering figure of Latin American poetry, Ernesto Cardenal was born on January 10, 1925, in Granada, Nicaragua. In 1965, he was ordained a priest. He served as Minister of Culture for the Sandinista government from 1979 to 1988. He is currently the director of Casa de los Tres Mundos, a cultural organization in Granada, Nicaragua. Cardenal is the author of more than 60 volumes of poetry, essays, and criticism. Angle Verse Spanish American poetry - Poetry has existed in Latin America since the earliest pre-Colombian civilizations existed. Many of the indigenous societies that populated the American territory had already established great histories, myths, and legends which made up the culture of communities such as the Aztec, Inca, and Maya. Latin poetry - Latin poetry was a major part of Latin literature during the height of the Latin language. During Latin literature's Golden Age, most of the great literature was written in poetry, including works by Virgil, Catullus, Horace, and Ovid. Latin American Economic System - The Latin American Economic System, officially known as Sistema Económico Latinoamericano (SELA), is an organization founded in 1975 to promote economic cooperation and social development between Latin American countries. In the early 1990s, its representatives consisted of members from 27 countries and took part in the General Agreement on Tariffs and Trade (GATT) negotiations, which led to a new global agreement on restrictions on trade and established the World Trade Organization (WTO). Latin American revolutions - The term Latin American Revolutions refers to the various revolutions that took place during the early 1800's that resulted in the creation of a number of independent countries in the Latin American region. This is considered to be one of the most influential series of events in the history of the Western Hemisphere. latinamericanpoetry clusters the Saxons, The are (Saxons, prerequisite the most important writers until now. EC seeks technological breakthrough in statistical translation techniques

Brussels, Belgium (Cordis): With the exploding demand for translations since enlargement, a new European project is developing a computer automatic translation system for the 23 official languages now spoken in the European Union. The €2.5 million Euromatrix project is aiming to achieve a technological breakthrough in the field of computer automatic translation through the development of statistical translation techniques.

AGILE consortium working on machine translation of speech and text from Arabic and Chinese

Edinburgh, Scotland (UoE): The AGILE consortium is a project for machine translation of speech and text from Arabic and Chinese. This is a joint project with BBN, ISI, MIT, and Cambridge University (and other partners working on speech recognition and distillations). It is funded by the US Defense Advanced Research Program Agency (DARPA), under a funding program called GALE.

BMW loses translation dispute

Pretoria, South Africa (IOL): Inkatha Freedom Party chief whip Koos van der Merwe has won his language skirmish with BMW. Last week Van der Merwe, who is famed for getting his point across in sometimes unconventional ways in Parliament, demanded to be provided with Afrikaans service forms when he took his vehicle in for regular maintenance at a Pretoria BMW dealership.

Pamuk on the value of translation

Istanbul, Turkey (Zaman): On arriving in Istanbul, Nobel Prize-winning Turkish author Orhan Pamuk underlined the significance of the Cairo Book Fair in bridging the Turkish and Arabic cultures, as well as the importance of translating books between the two languages. He said, "Maybe this Nobel Prize will contribute to that, God willing. Six or seven of my books have been translated into Arabic and they are going to be re-released. With support of the Egyptian Ministry of Culture, my other novels will be translated soon. There is huge interest in all aspects of Turkish literature and culture. I hope the reciprocal works continue."

New face for wounded Iraqi translator

New York, USA (WCBS): For two plastic surgeons rebuilding a face destroyed by a bullet runs a distant second to reconstructing a man's soul damaged by the trauma. The Iraqi-born man worked for the U.S. Military as a translator shortly after the invasion into Baghdad. That upset a Saddam loyalist, who shot him in the face.

Marsh Award for children's books in translation

London, UK (Guardian): JK Rowling and Philip Pullman may have conquered the world in a hundred different languages, but British readers don't share a reciprocal enthusiasm for the literature of other countries. Kai Meyer is apparently one of Germany's bestselling authors, but his books are barely known here. Egmont are aiming to change that by publishing his Flowing Queen trilogy - and their faith was rewarded when this first volume received the biennial Marsh Award for children's books in translation last week.

By Kai Meyer, translated by Anthea Bell

Cruel lack of sign language interpreters in Northern Ireland

Belfast, Northern Ireland (BT): The lack of sign language interpreters in Northern Ireland is preventing deaf people from accessing vital services and experiences that hearing people take for granted. At present there are only 10 fully qualified interpreters supporting a community of 5,000 sign language users.
